Dear Dr. Shipley:

Why, thank you for remembering me. That was an interesting roster of peers that you gave me.

I am interested in your historical inquiries: If you know of any characterization of Stuyvesant High School of the vintage 1938-41 when I was there, I would be interested to know the references. I have in mind issues like the policy framework that justified the school; the reactions of different civic groups to the notions of a special high school - some of the same questions that exercise people today in a somewhat different context. I know that I had to sit in a special examination but have no idea what that embraced, how selective it was, and so forth.

At any rate, my very best regards.

Yours sincerely,
